Harnessing the Healing Power of Art

# THE ART OF HEALING

MIND • BODY • SOUL

The hospital environment can be stressful, even for the bravest. When we navigate healthcare facilities, we often anticipate pain, suffering, and a sense of dread. In many hospitals, stark walls, bare floors, and bland furniture leave patients, visitors, and staff without a space that offers rest, beauty or peace.

Our mission is to harness the healing power of art. In healthcare settings, there is a profound need for additional support and care beyond the medical, and art reaches the mind, body and soul both directly and in subtle yet powerful ways.

Exciting developments are underway; leading healthcare facilities have recognized that integrating art into their buildings significantly enhances patient recovery and overall wellness.

Hospitals have seen remarkable results, not only do patients heal faster, but the atmosphere uplifts visitors, physicians, and staff. Art creates a sense of care that is felt by everyone. In addition it makes economic sense to cultivate an environment where the art, the architecture and the interior work in harmony towards healing.

CTP is bringing this innovative and holistic concept to the Middle East, with the focus on showcasing regional and local artists whose work has the power to transform healthcare environments.

We are looking forward to connecting and learning more about your projects to explore how we can support your vision.

Thank you for considering this important partnership.

## Full Service Bespoke Art Company

Healthcare, Corporate, Government,  
Commercial, Residential and Hospitality Sectors

### Fine Art Curation

Leveraging our longstanding relationships with hundreds of regional and international artists, and galleries we curate art collections that reflect and support each client's distinct mission and values. Prioritizing artists from the Middle East and the Global South, we want to support the region's artistic community.

### Full Service

From concept to installation we deliver turn-key solutions. We manage every detail - from initial concept development, floor plan analysis, procurement, inclusive of special commissions, through to installation - ensuring an efficient and seamless experience.

### Public Art

We transform public spaces with large-scale artworks, sculptures, installations, and murals that distinguish each location and support the client's strategic vision. Through the power of art we aim to bring communities together and inspire meaningful connections.
